Reviewer's report

Title: Secondary breast lymphoma diagnosed by Vacuum-assisted breast biopsy: case report.

Version: 2 Date: 22 August 2007

Reviewer: Jean Karl Soler

I am familiar with the literature and believe that this case meets one of the 7 criteria for evaluation in the journal: Presentations, diagnoses and/or management of new and emerging diseases

Has the case been reported coherently?: Yes

Is the case report authentic?: Yes

Is this case worth reporting?: Yes

Is the case report persuasive?: Yes

Does the case report have explanatory value?: Yes

Does the case report have diagnostic value?: Yes

Will the case report make a difference to clinical practice?: Yes

Revisions necessary for publication

Thank you for submitting this paper. I would make some small suggestions for corrections. I would suggest not reporting the patient’s BMI with such precision (two decimal points is too much, and I would use no decimal points). I would explain what BI-RADS 4B means.

What next?: Accept after minor revisions

Quality of written English: Acceptable
