Reviewer’s report

Title: Giant scrotal elephantiasis of inflammatory etiology: Case report

Version: 1 Date: 6 March 2007

Reviewer: patrick bastian

I am familiar with the literature and believe that this case meets one of the 7 criteria for evaluation in the journal: Presentations, diagnoses and/or management of new and emerging diseases

Has the case been reported coherently?: Yes

Is the case report authentic?: Yes

Is this case worth reporting?: Yes

Is the case report persuasive?: Yes

Does the case report have explanatory value?: Yes

Does the case report have diagnostic value?: Yes

Will the case report make a difference to clinical practice?: Yes

Comments to authors:

Revisions necessary for publication

Nice case presentation. I have only a few comments:
1. What does the author mean by immobile for at least 10 yrs due to the increased scrotum. How is immobile defined. Did the patient stay in bed for 10 yrs??
2. What does extramarital sexual contact mean? Any marital sex??
3. How about follow up?

What next?: Accept after minor revisions

Quality of written English: Acceptable
