Reviewer's report

Title: Cystic Fibrosis and Renal Disease

Version: 2 Date: 5 May 2007

Reviewer: abdelhamid najada

I am familiar with the literature and believe that this case meets one of the 7 criteria for evaluation in the journal: An unexpected association between diseases or symptoms

Has the case been reported coherently?: Yes

Is the case report authentic?: Yes

Is this case worth reporting?: No

Is the case report persuasive?: Yes

Does the case report have explanatory value?: No

Does the case report have diagnostic value?: No

Will the case report make a difference to clinical practice?: No

Comments to authors:

General
nicely written.
-----------------------------------

Revisions necessary for publication
its hardly to relate minimal change nephrotic syndrome to cystic fibrosis and no increased association between the two. and you cant relate the nephrotic syndrome to any of the drug used in the treatment for cystic fibrosis.

What next?: Reject

Quality of written English: Acceptable
