Reviewer's report

Title: Endometriosis of the appendix presenting as a caecal polyp: a case report

Version: 3 Date: 16 December 2007

Reviewer: Basilios Papaziogas

I am familiar with the literature and believe that this case meets one of the 7 criteria for evaluation in the journal: An unexpected association between diseases or symptoms.

Has the case been reported coherently?: Yes

Is the case report authentic?: Yes

Is this case worth reporting?: Yes

Is the case report persuasive?: Yes

Does the case report have explanatory value?: Yes

Does the case report have diagnostic value?: Yes

Will the case report make a difference to clinical practice?: Yes

Comments to authors:

This is a report of a case of endometriosis of the appendix, which caused intussusception of the appendix and was treated with appendectomy. The case is adequately described. I would recommend it for publication.

Minor comments
1. Change the title emphasizing the clinical presentation of the endometriosis as intussusception of the appendix.
2. Please refer to the possible pathogenesis of endometriosis of the appendix in the discussion.

What next?: Accept after minor revisions

Quality of written English: Acceptable
