Reviewer's report

Title: Atopic dermatitis, cutaneous steroids and cataracts in children: a case series.

Version: 5 Date: 6 March 2008

Reviewer: Soon Phaik Chee

I am familiar with the literature and believe that this case meets one of the 9 criteria for evaluation in the journal: Unreported or unusual side effects or adverse interactions involving medications

Has the case been reported coherently?: Yes

Is the case report authentic?: Yes

Is this case worth reporting?: Yes

Is the case report persuasive?: Yes

Does the case report have explanatory value?: Yes

Does the case report have diagnostic value?: No

Will the case report make a difference to clinical practice?: Yes

Is the anonymity of the patient protected?: Yes

Comments to authors:

This is a paper highlights one of the complications of atopic dermatitis that affect vision.

- Revisions necessary for publication nil.

This version has addressed the comments raised previously
