Reviewer's report

Title: Servelle-Martorell Syndrome With Extensive Upper Limb Involvement - A Case Report

Version: 4 Date: 20 December 2007

Reviewer: umile giuseppe longo

I am familiar with the literature and believe that this case meets one of the 7 criteria for evaluation in the journal: Unexpected or unusual presentations of a disease

Has the case been reported coherently?: Yes

Is the case report authentic?: Yes

Is this case worth reporting?: Yes

Is the case report persuasive?: Yes

Does the case report have explanatory value?: Yes

Does the case report have diagnostic value?: Yes

Will the case report make a difference to clinical practice?: Yes

Comments to authors:

A short, but well written paper.

The authors highlight the need for suspecting Servelle-Martorell syndrome as one of the causes of angiodysplastic limb hypertrophy. This is important to avoid delay in diagnosis and management.

What next?: Accept

Quality of written English: Acceptable
