Reviewer’s report

Title: Laparoscopic anterior gastropexy for chronic recurrent gastric volvulus: a case report

Version: 2 Date: 3 March 2008

Reviewer: William S Richardson

I am familiar with the literature and believe that this case meets one of the 9 criteria for evaluation in the journal: Other

If other, please specify:

Emerging treatments for the disease.

Has the case been reported coherently?: Yes

Is the case report authentic?: Yes

Is this case worth reporting?: Yes

Is the case report persuasive?: Yes

Does the case report have explanatory value?: Yes

Does the case report have diagnostic value?: No

Will the case report make a difference to clinical practice?: Yes

Is the anonymity of the patient protected?: Yes

Comments to authors:

There are a few spelling and grammatical errors. Although this is a good report there are several other authors that have approached this disease in a similar manner with the same good results. One case report does not make this treatment the gold standard but when this agrees with many other reports it may. I would slightly modify the conclusion.

What next?: Accept after minor revisions

Quality of written English: Acceptable
