Reviewer's report

Title: Retention of foreign body in the gut can be a sign of congenital obstructive anomaly: a case report

Version: 2 Date: 29 April 2008

Reviewer: Rasim Gencosmanoglu

I am familiar with the literature and believe that this case meets one of the 9 criteria for evaluation in the journal: An unexpected event in the course of observing or treating a patient

Has the case been reported coherently?: Yes

Is the case report authentic?: Yes

Is this case worth reporting?: Yes

Is the case report persuasive?: Yes

Does the case report have explanatory value?: Yes

Does the case report have diagnostic value?: Yes

Will the case report make a difference to clinical practice?: No

Is the anonymity of the patient protected?: Yes

Comments to authors:

Some information in the discussion section should be supported by relevant literature:
- 3rd sentence of the 1st paragraph
- 4th sentence of the 1st paragraph
- 3rd sentence of the 2nd paragraph
- the last sentence of the 2nd paragraph

Arrows may be used in the figure in order to indicate the specific radiological findings clearly.
