Reviewer's report

**Title:** Giant Pyogenic Granuloma of the Thigh: A Case Report.

**Version:** 2  **Date:** 14 February 2008

**Reviewer:** PAUL A FOX

I am familiar with the literature and believe that this case meets one of the 7 criteria for evaluation in the journal: Unexpected or unusual presentations of a disease

Has the case been reported coherently?: Yes

Is the case report authentic?: Yes

Is this case worth reporting?: Yes

Is the case report persuasive?: Yes

Does the case report have explanatory value?: Yes

Does the case report have diagnostic value?: Yes

Will the case report make a difference to clinical practice?: No

Comments to authors:

This is an interesting case report but I should point out that the last sentence of the abstract needs re-writing to make it comprehensible. Also, the report would read much better if the background was kept to a minimum and most of the material in it was transferred to the discussion, which seems a little brief.

What next?: Accept after minor revisions

Quality of written English: Acceptable
