Does the case report have diagnostic value?: Yes

Will the case report make a difference to clinical practice?: Yes

Is the anonymity of the patient protected?: Yes

Comments to authors:

1. The language needs attention by an expert;
2. Introduction and discussion sections can be modified to justify the title and purpose of the manuscript;
3. Authors have not provided details of skin, eye and CNS examinations;
4. Were histopathology examination and genetic studies done?

Quality of written English: Needs some language corrections before being published
