Reviewer's report

Title: Unique Challenges for Appropriate Management of a Teen with Superior Mesenteric Artery Syndrome as a Result of Anorexia Nervosa: A Case Report

Version: 2 Date: 1 October 2008

Reviewer: Debasree Ganguly

Which of the following best describes what type of case report this is?: None

Has the case been reported coherently?: Yes

Is the case report authentic?: Yes

Is the case report ethical?: Yes

Is there any missing information that you think must be added before publication?: Yes

Is this case worth reporting?: Yes

Is the case report persuasive?: Yes

Does the case report have explanatory value?: Yes

Does the case report have diagnostic value?: Yes

Will the case report make a difference to clinical practice?: Yes

Is the anonymity of the patient protected?: Yes

Comments to authors:

1. The discussion should include some more references from the literature describing the association of the two conditions and management strategies.
2. Is the girl still on follow-up? Include the final outcome of the interventions.

Quality of written English: Acceptable
