Title: Hepatic Artery Aneurysm Repair: Report of an Unusual Case

Version: 2 Date: 1 February 2008

Reviewer: Lawand Qaradaghi

I am familiar with the literature and believe that this case meets one of the 7 criteria for evaluation in the journal: An unexpected association between diseases or symptoms

Has the case been reported coherently?: Yes

Is the case report authentic?: Yes

Is this case worth reporting?: Yes

Is the case report persuasive?: Yes

Does the case report have explanatory value?: Yes

Does the case report have diagnostic value?: No

Will the case report make a difference to clinical practice?: Yes

Comments to authors:

most frequently reported visceral artery aneurysm.
invasive hepato-biliary procedures, many of which have hepatic artery pseudoaneurysm formation.

What about the real incidence?

What next?: Accept after minor revisions

Quality of written English: Needs some language corrections before being published
