Reviewer’s report

Title: Dentin dysplasia type I: report of an atypical case

Version: 4 Date: 16 March 2009

Reviewer: MARIO MUÑOZ-GUERRA

Which of the following following best describes what type of case report this is?: None

If other, please specify:

It’s a simple case report, but revision of the literature about this disease is complete and adequate.

Has the case been reported coherently?: Yes

Is the case report authentic?: Yes

Is the case report ethical?: Yes

Is there any missing information that you think must be added before publication?: Yes

Is this case worth reporting?: Yes

Is the case report persuasive?: Yes

Does the case report have explanatory value?: Yes

Does the case report have diagnostic value?: Yes

Will the case report make a difference to clinical practice?: No

Is the anonymity of the patient protected?: Yes

Comments to authors:

The numeration of the figures is incorrect. The quality of surgical imaging is not appropriate. If the authors have another image, this figure could be changed; if not, this image should be changed. Also, the authors would have to affect on the surgical treatments of the dentin dysplasia, such as the treatment across bone grafts and osseointegrated implants.

Reference

Dentin dysplasia type I treated with onlay bone grafting, sinus augmentation, and
osseointegrated implants. Muñoz-Guerra MF, Naval-Gías L, Escorial V, Sastre-Pérez J.

Quality of written English: Needs some language corrections before being published
