Is the case report persuasive?: Yes

Does the case report have explanatory value?: Yes

Does the case report have diagnostic value?: Yes

Will the case report make a difference to clinical practice?: No

Is the anonymity of the patient protected?: Yes

Comments to authors:
The article has been well revised and in my opinion relatively all reviewers’ comments and recommendations are answered or applied to the manuscript. There are still few typing errors that should be corrected, for example "dentin" and "dentine" are both used in the same sentence.

Quality of written English: Acceptable

Declaration of competing interests:
