Reviewer's report

Title: A young female with massive hemoptysis and deep venous thrombosis: HUGHES-STOVIN SYNDROME.

Version: 2 Date: 27 May 2009

Reviewer: dimitrios N tziakas

Which of the following best describes what type of case report this is?: New associations or variations in disease processes

Has the case been reported coherently?: Yes

Is the case report authentic?: Yes

Is the case report ethical?: Yes

Is there any missing information that you think must be added before publication?: No

Is this case worth reporting?: Yes

Is the case report persuasive?: Yes

Does the case report have explanatory value?: Yes

Does the case report have diagnostic value?: Yes

Will the case report make a difference to clinical practice?: Yes

Is the anonymity of the patient protected?: Yes

Comments to authors:

A brief pathophysiologic substrate of DVT in the case of vasculitis (having in mind that your patient had elevated Lupus anti-coagulant) should be presented

Quality of written English: Acceptable

Declaration of competing interests:
