Reviewer's report

Title: Synchronous perforation of a duodenal and a gastric ulcer—a rare case report

Version: 1 Date: 26 March 2010

Reviewer: Raimundas Lunevicius

Which of the following best describes what type of case report this is?: Unexpected or unusual presentations of a disease

Has the case been reported coherently?: Yes

Is the case report authentic?: Yes

Is the case report ethical?: Yes

Is there any missing information that you think must be added before publication?: Yes

Is this case worth reporting?: Yes

Is the case report persuasive?: Yes

Does the case report have explanatory value?: Yes

Does the case report have diagnostic value?: Yes

Will the case report make a difference to clinical practice?: Yes

Is the anonymity of the patient protected?: Yes

Comments to authors:

Suggestions are as follows: to specify first (Introduction) and third (rename as 'Comments' or 'Discussion') sections of the paper as much as possible. There are too many generalities. Avoid discussions around laparoscopic repair of perforated gastric or duodenal ulcer. Conclusion have to be short and firm. Be specific as much as you can.

Quality of written English: Acceptable

Declaration of competing interests:

I have no any competing interests in relation to the paper I am reviewing.
