Reviewer’s report

**Title:** Long-Term Survival of a Patient with Well Differentiated Papillary Mesothelioma of the Peritoneum: Case Report and Review of the Literature

**Version:** 1  **Date:** 28 January 2010

**Reviewer:** Alfonso Baldi

Which of the following best describes what type of case report this is?: An unexpected event in the course of observing or treating a patient

Has the case been reported coherently?: Yes

Is the case report authentic?: Yes

Is the case report ethical?: Yes

Is there any missing information that you think must be added before publication?: Yes

Is this case worth reporting?: Yes

Is the case report persuasive?: Yes

Does the case report have explanatory value?: Yes

Does the case report have diagnostic value?: Yes

Will the case report make a difference to clinical practice?: No

Is the anonymity of the patient protected?: Yes

Comments to authors:

The manuscript is well written and the case is interesting. The authors must include evidences on the nature of the neoplasm they are describing, such as instrumental and especially histological pictures.

**Quality of written English:** Acceptable
