Reviewer's report

Title: Toxoplasmosis in the immunocompetent patient: a case report

Version: 2 Date: 29 January 2010

Reviewer: Laura Kirkman

Which of the following following best describes what type of case report this is?: Other

If other, please specify:

A relatively rare diagnosis in the US of acute toxoplasmosis from undercooked meat.

Has the case been reported coherently?: Yes

Is the case report authentic?: Yes

Is the case report ethical?: Yes

Is there any missing information that you think must be added before publication?: No

Is this case worth reporting?: Yes

Is the case report persuasive?: Yes

Does the case report have explanatory value?: Yes

Does the case report have diagnostic value?: Yes

Will the case report make a difference to clinical practice?: No

Is the anonymity of the patient protected?: Yes

Comments to authors:

Though this case does not represent an unusual presentation of disease (though the mode of transmission is relatively rare in this region of the US), it does provide a basic review of lymphadenopathy and toxoplasmosis.

Quality of written English: Acceptable
