Is the case report persuasive?: Yes

Does the case report have explanatory value?: Yes

Does the case report have diagnostic value?: Yes

Will the case report make a difference to clinical practice?: Yes

Is the anonymity of the patient protected?: Yes

Comments to authors:

This manuscript entitled, “Solitary Peutz-Jeghers-type hamartomatous polyp in the duodenum: Is it associated with a low risk of cancer?” is a relatively rare and clinically important case report. However, the revision is still necessary.

Specific comments to the Author:
This case report is well written except for the section of discussion. Therefore, the authors should add some comments about the strategy of diagnosis and treatment into the section.

Quality of written English: Acceptable
