Reviewer's report

Title: Oral squamous cell carcinoma: a case series

Version: 1 Date: 28 February 2011

Reviewer: Zohreh Dalirsani

Comments to authors:

1) It is suggested that add “cases series” to key words.
2) Reference should be added to third sentence of introduction.
3) Some words should be changed such as: tretment(treatment), systemical(systemic), maxiler(maxillary), localised(localized), lenf(lymph),
4) In cases: grade of SCC and the size of the lesion and treatment and follow up should be mentioned.
5) In case 2: the examination of lymph nodes should be explained.
6) It's better to reveal with which radiography technique expansion of bone was recognized.
7) Radiographic description should be completed and the borders of lesions (regular or irregular) be mentioned.
8) In the references: ref 1": it is better to replace with newer edition of the book: 2009.
9) In the first paragraph of discussion: the reference 7 is related to the article in 1989 and it is not suitable for the term:" recent years".
10) And in the second paragraph "data from several reports ...." Just one reference is mentioned.
11) In the sentence of " survival ratio of head and neck cancer...." It is better to "survival rate of SCC be mentioned and the references related to " survival rate of SCC" should be new.
12) The paragraph about references "14 and 15", two references should be separated and every sentence should have one reference.
13) It is better to explain more about "aggressive therapy" in the end of discussion.
14) In the legend of pictures, more explanation is needed and the pictures should be referred in the text.
15) The English writing quality of this manuscript is unacceptable. The text should be grammatically revised.
