Is this case worth reporting?: Yes

Is the case report persuasive?: Yes

Does the case report have explanatory value?: Yes

Does the case report have diagnostic value?: No

Will the case report make a difference to clinical practice?: Yes

Is the anonymity of the patient protected?: Yes

Comments to authors:

occurrence, progression and severity of HPV infection depends upon, among other things, sexual behaviour of the person, as well as personal hygiene.

considering her faith in alternative therapies, was the patient careless about her hygiene also?

can the report be made a little short by bypassing repetition?

Quality of written English: Acceptable
