Reviewer's report

Title: teratoma of lumbosacral region: a site of extreme rarity

Version: 1 Date: 13 December 2010

Reviewer: Raheel Khan

Which of the following best describes what type of case report this is?: Unexpected or unusual presentations of a disease

Has the case been reported coherently?: Yes

Is the case report authentic?: Yes

Is the case report ethical?: Yes

Is there any missing information that you think must be added before publication?: No

Is this case worth reporting?: Yes

Is the case report persuasive?: Yes

Does the case report have explanatory value?: Yes

Does the case report have diagnostic value?: Yes

Will the case report make a difference to clinical practice?: No

Is the anonymity of the patient protected?: Yes

Comments to authors:

Subject wise this is a good article. However, grammatically it should be re-written. Especially in the first paragraph there are multiple short, almost fragmented sentences that break up the flow of the reading.

Quality of written English: Needs some language corrections before being published

Declaration of competing interests:
