Reviewer's report

Title: Glucagonoma syndrome: a case report

Version: 1 Date: 21 March 2011

Reviewer: Ioannis Pliakos

Comments to authors:

Section introduction:
There are no references in the introduction section.

Section discussion:
The 1st paragraph should be transferred to the introduction.
The 2nd paragraph should be deleted, it offers nothing to the manuscript
The 3rd paragraph should be transferred to the introduction
The 5th paragraph should be the first paragraph of the discussion since this is a case report orientated to the glucagonoma syndrome.
There should be a paragraph concerning the rare pancreatic tumors [Padhi JOP 2010] [Espinal-Witter Virchows Archives 2010] [Cheng Cancer Treat Res 2010] [Papavramidis Annals Gastroenterol 2010] [Apostolidis J Med Case Reports 2008] etc
