Comments to authors:

Comments to authors: This Case report is well written and opnly a few issues ned to be addressed:

a) There statement that plasmacytomabs of the testis is rare is repeated a few times in the article and should only be mentioned at the beginning and at the conclusion.

b) Did the patient undergo a Ct scan of the abdomen and chest- this should be mentioned.

c) A picture of the Gross specimen should be made available for the benefit of the readers.
