Reviewer’s report

Title: Solitary Pulmonary Nodule of Benign Metastasizing Leiomyoma associated with Primary Lung Cancer: a case report

Version: 1 Date: 14 July 2011

Reviewer: christelle clement-duchene

Which of the following best describes what type of case report this is?: Presentations, diagnoses and/or management of new and emerging diseases

Has the case been reported coherently?: Yes

Is the case report authentic?: Yes

Is the case report ethical?: Yes

Is there any missing information that you think must be added before publication?: Yes

Is this case worth reporting?: No

Is the case report persuasive?: Yes

Does the case report have explanatory value?: Yes

Does the case report have diagnostic value?: Yes

Will the case report make a difference to clinical practice?: No

Is the anonymity of the patient protected?: Yes

Comments to authors:

The authors should add some data about the association, in the literature, between lung cancer and leiomyoma

Quality of written English: Acceptable

Declaration of competing interests:

I have no conflict of interest
