Title: Collapsing glomerulopathy in Sickle cell disease Unveiled -A cryptic tale

Comments to authors:

It's not suitable for the case report of Dr. Ganga B Ramidi, etc. titled with "Collapsing glomerulopathy in Sickle cell disease Unveiled -A cryptic tale" to be published in Journal of Medical Case Reports. The treatment and disease development of the patient is hard to be understood, and the discussion is so discursive that it can not give readers a clear valuable thought.
