Is the case report ethical?: Yes

Is there any missing information that you think must be added before publication?: No

Is this case worth reporting?: Yes

Is the case report persuasive?: Yes

Does the case report have explanatory value?: Yes

Does the case report have diagnostic value?: Yes

Will the case report make a difference to clinical practice?: No

Is the anonymity of the patient protected?: Yes

Comments to authors:

The association of neurofibromatosis Type 1 and papillary thyroid carcinoma is rare. This kind of rare cases should be published in order to share the experiences.

Quality of written English: Needs some language corrections before being published
