Is the case report ethical?: Yes

Is there any missing information that you think must be added before publication?: No

Is this case worth reporting?: Yes

Is the case report persuasive?: Yes

Does the case report have explanatory value?: Yes

Does the case report have diagnostic value?: Yes

Will the case report make a difference to clinical practice?: Yes

Is the anonymity of the patient protected?: Yes

Comments to authors:

This is a well written and very interesting paper enlightning the fact that rare nerve injuries do really happen.
I would only make a tiny remark, should the discussion section be shorter, since much of the information given is a repetition of that already mentioned in the Introduction section.

Quality of written English: Acceptable
