Comments to authors:

There are few more corrections that the authors need to do.
1- Please write not in short form.
2- After numbershould has spacing
3- Keywords need to check
4- Labelling the figure properly and must be tally in the text
5- Quality of the CT scan should be improved.
6- Each figure should has footnote
   Ie An axial Ct scan shows............................
   Figure 1 and Figure 2 is almost the same.
7- Conclusion.
   Suggest changes, no need to write we therefore concluded
   This manuscript need to revise and resubmit.
