Is the case report persuasive?: Yes

Does the case report have explanatory value?: Yes

Does the case report have diagnostic value?: Yes

Will the case report make a difference to clinical practice?: Yes

Is the anonymity of the patient protected?: Yes

Comments to authors:

In the abstract, the first sentence of the conclusion is inaccurate. It needs to be corrected.

In parts the quality of the English used is not quite up to a standard I would expect.

Quality of written English: Needs some language corrections before being
published
