Reviewer’s report

Title: A postmenarchal girl with hematometra: a case report

Version: 2 Date: 11 August 2012

Reviewer: Devendra D Gupta

Which of the following best describes what type of case report this is?: Unexpected or unusual presentations of a disease

Has the case been reported coherently?: Yes

Is the case report authentic?: Yes

Is the case report ethical?: Yes

Is there any missing information that you think must be added before publication?: Yes

Is this case worth reporting?: Yes

Is the case report persuasive?: Yes

Does the case report have explanatory value?: Yes

Does the case report have diagnostic value?: Yes

Will the case report make a difference to clinical practice?: Yes

Is the anonymity of the patient protected?: Yes

Comments to authors:

The introduction from the abstract can be deleted. It is already there in the text. The report can be made brief highlighting the fact that even the usual approach may not be sufficient at times in Emergency situations.

Quality of written English: Needs some language corrections before being published

Declaration of competing interests:
