RE: SUBMISSION TO INTERNATIONAL JOURNAL OF CLINICAL ONCOLOGY

Dear Editor,

Please find attached the manuscript titled: "TRABECTEDIN AS SECOND LINE TREATMENT IN METASTATIC MYXOID LIPOSARCOMA" to be considered for publication in International Journal of Clinical Oncology. I, as first author, sign the letter on behalf of all authors. All authors have made substantial contributions to all of the following: (1) the conception and design of the study, or acquisition of data, or analysis and interpretation of data, (2) drafting the article or revising it critically for important intellectual content, (3) final approval of the version to be submitted. None of the authors has declared to have any conflict of interest.

This is a relevant study because it is an original case report reporting an unusual presentation of a disease and a new treatment strategy with implications to a broad medical audience including medical, radiation, surgical and OB-GYN.

Do not hesitate to contact me if you need further information.
Looking forward to hearing from you soon,

Best regards,

Irene Zarcos, MD
