Is this case worth reporting?: Yes

Is the case report persuasive?: Yes

Does the case report have explanatory value?: Yes

Does the case report have diagnostic value?: Yes

Is the anonymity of the patient protected?: Yes

Comments to authors:

The following information is requested -

a) The authors need to report 'immunofluorescence staining' findings of the renal biopsy performed on this patient.

b) I would like to know about the long-term follow-up of this patient. How was her immunosuppression managed post-discharge?

I commend the authors on a lucid concise case history but would like them to comment on the issues raised above.
