Reviewer’s report

Title: Essential palatal myoclonus following dental surgery: a case report

Version: 2 Date: 15 April 2013

Reviewer: Leo McClymont

Which of the following following best describes what type of case report this is?: Unexpected or unusual presentations of a disease

Has the case been reported coherently?: Yes

Is the case report authentic?: Yes

Is the case report ethical?: Yes

Is there any missing information that you think must be added before publication?: Yes

Is this case worth reporting?: Yes

Is the case report persuasive?: Yes

Does the case report have explanatory value?: Yes

Does the case report have diagnostic value?: Yes

Will the case report make a difference to clinical practice?: Yes

Is the anonymity of the patient protected?: Yes

Comments to authors:

I think we need about follow up. The authors state the Botox was effective immediately but don’t state that the effect was long lasting. This is important because it would influence anyone treating a similar patient in the future.

Quality of written English: Acceptable
