Is the case report persuasive?: No

Does the case report have explanatory value?: No

Does the case report have diagnostic value?: No

Will the case report make a difference to clinical practice?: Yes

Is the anonymity of the patient protected?: Yes

Comments to authors:

Please give a better report of the venous function on the affected side after the surgery.

How was the patency of the femoral vein assured in the drug addict? Hadn't he already used up his veins before he injected into the artery?

Quality of written English: Acceptable
