Comments to authors:

Groin infectious bleeding is a challenge in vascular surgery, congratulations to the authors for successful treatment of such two difficult cases.

1. Is the title changed as "Femoral vein obturator bypass revascularization in groin infectious bleeding : report of two cases " better?
2. For the obturator bypass procedure, do you have any tips or instructions? please add it in discussion part.
Quality of written English: Needs some language corrections before being published
