Is the case report persuasive?: No

Does the case report have explanatory value?: No

Does the case report have diagnostic value?: No

Will the case report make a difference to clinical practice?: Yes

Is the anonymity of the patient protected?: Yes

Comments to authors:

The manuscript is interesting but the English language needs some improvement. Several mistakes related to writing style should be corrected.

Anyway, the case relate to a rare entity in a particular site and deserve to be published after some updates.

Page 4, line 2: please specify White blood cell count with formula

Page 4, line 7: please better specify the sequence of antibiotics were used

Page 4, line 9: please specify the timing of cultures with regard to antibiotic therapy

The reference order does not fit the numbers in the text. Please review it.
Quality of written English: Not suitable for publication unless extensively edited
