Reviewer's report

Title: Pregnancy in a unicornuate uterus: a case report.

Version: 1 Date: 12 October 2013

Reviewer: Ana Areia

Which of the following best describes what type of case report this is?: Unexpected or unusual presentations of a disease

Has the case been reported coherently?: No

Is the case report authentic?: Yes

Is the case report ethical?: Yes

Is there any missing information that you think must be added before publication?: Yes

Is this case worth reporting?: No

Is the case report persuasive?: No

Does the case report have explanatory value?: Yes

Does the case report have diagnostic value?: Yes

Will the case report make a difference to clinical practice?: No

Is the anonymity of the patient protected?: Yes

Comments to authors:

You should ask for english revision; the bad construction of sentences makes it very difficult to read the article.

When submitting an article, english mistakes or missing words should be avoided.

Information about pregnancy should be presented in a chronological order. Also, there is information missing about 1st and 2nd trimester.

Cervix length at 20 Weeks of 34mm: what does it really mean? What tocolytic was used and how does it work?

Bleeding from the vagina?

In conclusions, the 1st paragraph has no sense...where does it came from?
Quality of written English: Not suitable for publication unless extensively edited
