Reviewer's report

Title: Potential risk of alpha-glucosidase inhibitor administration in prostate cancer external radiotherapy by the exceptional intestinal gas production: a case report

Version: 5  Date: 27 January 2014

Reviewer: Calvin Thigpen

Which of the following following best describes what type of case report this is?: An unexpected event in the course of observing or treating a patient

Has the case been reported coherently?: Yes

Is the case report authentic?: Yes

Is the case report ethical?: Yes

Is there any missing information that you think must be added before publication?: No

Is this case worth reporting?: Yes

Is the case report persuasive?: Yes

Does the case report have explanatory value?: Yes

Does the case report have diagnostic value?: Yes

Will the case report make a difference to clinical practice?: Yes

Is the anonymity of the patient protected?: Yes

Comments to authors:

The appropriate changes have been made for the article to be acceptable for publication as reported, provided that, if the figure legend is included in the publication, item (D) needs to be changed to read "minutes" rather than "minute" and "exists" rather than "exist."

Quality of written English: Acceptable

Declaration of competing interests:
