Does the case report have explanatory value?: Yes

Does the case report have diagnostic value?: Yes

Will the case report make a difference to clinical practice?: Yes

Is the anonymity of the patient protected?: Yes

Comments to authors:

The authors reported a rare case of Pituitary metastasis of rhabdomyosarcoma from the shoulder. However, a pathology with pictures is necessary before diagnosis. Meanwhile, it is not the first case reported in the litterature - some valuable references has been missed.

Quality of written English: Needs some language corrections before being published
