Reviewer’s report

Title: Epidermoid cyst of the coronal sulcus mimicking penile cancer.

Version: 1 Date: 24 April 2014

Reviewer: Paolo Verze

Which of the following best describes what type of case report this is?: An unexpected event in the course of observing or treating a patient

Has the case been reported coherently?: Yes

Is the case report authentic?: Yes

Is the case report ethical?: Yes

Is there any missing information that you think must be added before publication?: No

Is this case worth reporting?: Yes

Is the case report persuasive?: Yes

Does the case report have explanatory value?: Yes

Does the case report have diagnostic value?: Yes

Will the case report make a difference to clinical practice?: Yes

Is the anonymity of the patient protected?: Yes

Comments to authors:

The case report is very well written with exact reporting of the main clinical informations and management. Furthermore, clinical implications are very clearly stated and explain how a similar patient case presentation should be managed.

Quality of written English: Acceptable
