Is the case report persuasive?: Yes

Does the case report have explanatory value?: Yes

Does the case report have diagnostic value?: No

Will the case report make a difference to clinical practice?: Yes

Is the anonymity of the patient protected?: Yes

Comments to authors:

This is an interesting case report. The photographs are good and the case description is adequate. My specific comments are:

1. There are minor spelling errors in the manuscript. Please proof read carefully.

2. Please cite the following references:

3. It is imperative that the authors highlight the fact that Crosslinking was used to treat MRSA infection. Please discuss briefly the prevalence of MRSA infections.
