Reviewer's report

Title: Pulmonary hemangioendothelioma presenting with vertebral metastases: a case report

Version: 2 Date: 3 April 2014

Reviewer: Ravindra Pandey

Comments to authors:

1. In introduction of abstract section, the author has written wrong spelling of Hemangioendothelioma.

2. The sentences are very long eg. The second sentence of introduction in abstract section is too long.

3. There is another spelling mistake eg. The correct spelling is bronchioloalveolar. Author has written bronchoalveolar.

4. In the same section last sentence needs reframing. It is written very casually.

5. It will be better if author write RT course was given 5 days a week instead of writing per 5 days/week.

6. The whole case report is written in a very casual manner with lots of grammatical mistakes and it should be written in a perfect scientific language.

7. Needs correct framing

Quality of written English: Needs some language corrections before being published
