Reviewer’s report

Title: Acute renal failure as a form of presentation of sarcoidosis at the young adult: a case report

Version: 3  Date: 10 February 2014

Reviewer: Guillaume Armengol

Which of the following best describes what type of case report this is?: Unexpected or unusual presentations of a disease

Has the case been reported coherently?: Yes

Is the case report authentic?: Yes

Is the case report ethical?: Yes

Is there any missing information that you think must be added before publication?: No

Is this case worth reporting?: Yes

Is the case report persuasive?: Yes

Does the case report have explanatory value?: Yes

Does the case report have diagnostic value?: Yes

Will the case report make a difference to clinical practice?: Yes

Is the anonymity of the patient protected?: Yes

Comments to authors:

1. You should skip the anemia section (from the anemia was microcytic to jaundice) => 11.5 is close to normal value, no further explanation is needed.
2. Be careful of the spaces between words of after a dot (always one space after a dot)

Quality of written English: Acceptable
