Reviewer’s report

Title: Anesthetic management in a patient with giant growing teratoma syndrome: a case report

Version: 2 Date: 16 October 2013

Reviewer: William Donaldson

Which of the following describes what type of case report this is?: Presentations, diagnoses and/or management of new and emerging diseases

Has the case been reported coherently?: Yes

Is the case report authentic?: Yes

Is the case report ethical?: Yes

Is there any missing information that you think must be added before publication?: Yes

Is this case worth reporting?: Yes

Is the case report persuasive?: Yes

Does the case report have explanatory value?: Yes

Does the case report have diagnostic value?: No

Will the case report make a difference to clinical practice?: Yes

Is the anonymity of the patient protected?: Yes

Comments to authors:

A well-presented and unusual case. The description of the case along with management of the anaesthesia-related issues is done well.

There are a few minor language corrections which I have suggested.

Quality of written English: Needs some language corrections before being published
