Is there any missing information that you think must be added before publication?: No

Is this case worth reporting?: Yes

Is the case report persuasive?: Yes

Does the case report have explanatory value?: Yes

Does the case report have diagnostic value?: Yes

Will the case report make a difference to clinical practice?: No

Is the anonymity of the patient protected?: Yes

Comments to authors:

This case is interesting and helpful in the view point of education. So I think it’s enough to publish. I would like to recommend to add the comparison of other six cases including this case as a table because only small number of cases is reported.

Level of interest: An article of outstanding merit and interest in its field

Quality of written English: Acceptable
