Is the case report persuasive?: Yes

Does the case report have explanatory value?: Yes

Does the case report have diagnostic value?: Yes

Will the case report make a difference to clinical practice?: Yes

Is the anonymity of the patient protected?: Yes

**Comments to authors:**

This could be considered for publication but requires a redaction of the English (the verb tense varies between sentences, for example) and the reference format is not uniform.

Please ensure that it is thoroughly read by a native English writer. Thank you.

**Level of interest:** An article whose findings are important to those with closely related research interests

**Quality of written English:** Needs some language corrections before being published
