Is the case report persuasive?: Yes

Does the case report have explanatory value?: Yes

Does the case report have diagnostic value?: No

Will the case report make a difference to clinical practice?: Yes

Is the anonymity of the patient protected?: Yes

Comments to authors:

There are still numerous grammar mistakes that still need addressing

I appreciate you were unable to perform genetic testing, however I still think the response to cetirizine should be quantified. You mentioned that response to cetirizine was partial but it is not clear whether this reduced the frequency of attacks or severity and if so by how much?
Quality of written English: Needs some language corrections before being published
