Reviewer's report

Title: Elderly onset intramedullary epidermoid cyst: a case report

Version: 4  Date: 30 October 2014

Reviewer: Bernhard Schaller

Comments to authors:

The authors present an interesting and in principle well written manuscript. I would suggest that the discussion should widen the discussion about the age-dependence of the epidermoid cyst removal. In this context should be cited the following manuscript (J Neurooncol. 2005 Nov;75(2):157-61) discussing the aspect of outcome.
