Reviewer’s report

Title: The role of the small intestine in the development of dietary fat-induced obesity and insulin resistance in C57BL/6J mice

Version: 3 Date: 28 March 2008

Reviewer: Leslie P Kozak

Reviewer’s report:

I appreciate the effort of the reviewers to clarify the manuscript by responding to the questions I raised. I did not see these questions as serious enough to prevent publication of this interesting research; however, I think their efforts have certainly improved the presentation and depth of their analysis. The revised manuscript should be promptly published.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
